CHOCOLATE UNDER THE MICROSCOPE

The Chocolate Lab is helping **Mont Blanc Gourmet** develop future products with an R&D and consultation process with the goal of producing private label signature syrups for the nation's biggest coffee retailers. The team is led by Mont Blanc's cofounder Michael Szyliowicz, a French-trained chocolatier, along with food scientist Anne Craddock and certified research chef Charles Heaton. The flavor experts work closely with companies to create sauces, beverages, drink mixes, powdered drinks and/or beverage toppings to match their brand. 2925 E.
